OLD COLONY NURSERIES

T. R. WATSON, - PLYMOUTH, MASS.

ANSWERS TO SOME QUESTIONS.

All plants, shrubs, or trees offered in this catalogue can be planted with success in the spring.

The planting season varies; sometimes beginning as early as March 20, sometimes as late as April 6.

For fall planting the best results are obtained with Herbaceous Perennials, from September 15 to November 1. They should be protected with a mulching of pine needles or some other like material.

If it is desired to plant Evergreens in the fall they should be planted the last week in August or the first week in September. Here the percentage of loss on Evergreens planted in the fall has always been much larger than on the same stock planted in the spring.

All deciduous shrubs and trees, including all the fruits offered, can be planted in the fall as readily as in the spring. These are generally ripened enough to ship from October 20 to November 1; but occasionally these dates must be advanced. From the time they are ripe until the ground is frozen it is perfectly safe to plant; the later the better.

Azaleas, Hybrid Roses and Rhododendrons should be planted in the spring only.

Planting:—Puddle every plant in mud about the consistency of thick cream. Let the hole be large enough to take the roots easily. Tamp the earth in about the roots as firmly as you would set a fence post. This for thoroughly well cultivated ground. If the ground is sod: trench to the depth of two feet, leaving the fine soil on top. Single trees or shrubs planted in sod: make the hole at least three feet in diameter and two feet deep; put the sod in bottom of the hole and use the fine soil to plant the tree.

Manure:—Well rotted stable manure the best; hard wood ashes good; if you cannot get any of these, use any commercial fertilizer.

Starved plants will not thrive. Plants overgrown with weeds and grass will not grow. They should be hoed once in ten days.

No. 85

PRICE LIST

Of Hardy Ornamental Trees, Hardy Flowering Shrubs, Evergreens, Roses, Bulbs, Herbaceous Plants, Fruits, etc., for Parks, Cemeteries, Gardens and Public and Private Grounds.

OLD COLONY NURSERIES, PLYMOUTH, MASS. U. S. A.

Home or foreign orders filled with utmost care and promptness.

GUARANTEE. We take the greatest pains to have every plant marked true to name. Any plant incorrectly marked will be promptly replaced, or money returned. We do not guarantee any more than the original cost of the plant.

We cannot guarantee plants to live, at the prices of this catalogue. We send out young, thrifty plants; which should live if properly planted and cared for.

ORDERS. Please use the order sheet and fill out all the blanks. Write your name and shipping address (also P. O. address, if different) as clearly as possible. Say whether you will have them sent by express or freight. Remit by check or P. O. order. Stamps for small amounts. Please follow the order of the catalogue and carry out prices.

PACKING is charged at cost of the case or bale.

Delivery of all packages to freight or express free.

We do not pay either freight or express.

All plants at the risk of the purchaser after they are delivered to the public carrier.

Notify us at once of any delay in receipt of stock.

Notify us promptly of any error in filling order.

From the following lists; five at the ten rate; fifty at the hundred rate.

Alphabetical List of Common Names with corresponding Botanical Name.

To avoid confusion please order by the Botanical Name. For instance Japanese Privet means either *Ligustrum ovalifolium* or *Ligustrum Ibotia*; Japanese Rose means either *Rosa Multiflora*, *Rosa Rugosa*, *Kerria Japonica* or *Rosa Wichuriana*. Additions to this List will be gladly received where the plant is offered.

Adams Needle— <i>Yucca filamentosa</i>	Bee Tree— <i>Tilia</i>	Burnet Rose— <i>Rosa Spinosissima</i>
Alder, Black— <i>Ilex verticillata</i>	Bell Flower— <i>Campanula</i>	Bush Honeysuckle— <i>Lonicera Tartarica</i>
Almond, Flowering— <i>Prunus Japonica</i>	Benjamin Bush— <i>Lindera Benzoin</i>	Butterfly Weed— <i>Asclepias tuberosa</i>

HYBRID PERPETUAL ROSES.

Hybrid Perpetual Roses: grafted low on a stock that does not start easily. Have found these far better than the same varieties on own roots. Well established field grown plants are offered. They should be planted deep in well enriched soil. Plant three or four inches above the graft. Cut back to six inches after planting.

The following selected varieties are offered at 25 cents each; \$2.25 per ten; \$20.00 per 100.

Abel Carriere, velvety crimson.	Gen. Jacqueminot, dark red.	M. P. Wilder, carmine red.
Alfred Colomb, carmine.	General Washington, crimson.	Mrs. R. G. Sharman Crawford, pink
American Beauty, red.	Gloire Lyonnaise, light yellow.	Mrs. John Laing, pink.
Anna de Diesbach, pink.	Gruss aus Teplitz, scarlet.	Mrs. Charles Wood, crimson.
Augustine Guinousseau, white.	Harrison Yellow, pure yellow.	Monsieur Bonsenne, dark red.
Br. de Bonstette, rich maroon.	John Hopper, bright rose.	Paul Neyron, dark rose.
Baron de Rothschild, light rose.	Jules Magottin, bright rose.	Persian Yellow, bright yellow.
Captain Christy, delicate rose.	Kaiserin Aug. Victoria, creamy white.	P. C. de Rohan, deep crimson.
Caroline Testout, satiny pink.	La France, silvery rose.	Sir Thos. Lipton, double, white.
Celine Forestier, light yellow.	Magna Charta, pink.	Soleil d'Or, deep yellow.
Coquette des Alpes, white.	Mme. Gabriel Luizet, soft rose.	Ulrich Brunner, cherry red.
Fisher Holmes, dark red.	Margaret Dickson, white.

I offer about ten of the hardiest varieties of the English grown hybrid Rhododendrons. They are the best Rhododendrons procurable for New England. The plants nice, bushy, well budded stock, from 18 in. to 3 ft., according to variety. The best variety of colors.

Use peat or leaf mould freely in planting. Water freely in July and August. In December mulch with about 1 ft. of leaves and protect with pine boughs, Do not take this covering off before the middle of April. Azaleas and Kalmias need the same treatment.

RHODODENDRONS English grown hybrids18 in. to 3 ft. \$ 1.50 \$15 00 \$150.00

A few extra English Hybrid Rhododendrons in variety, \$2.00 to \$3.00, each.

Decorative Perennial Herbaceous Plants.

These plants are all hardy and produce an immediate effect, as they bloom the first year they are planted. The autumn is the best time for putting out herbaceous plants; they should be covered with a forkful of dung to protect them from being thrown out by the frost. They may be planted in the spring, also, with great success. I offer the following choice collections of my own selection, in the very finest and most useful sorts. This class of plants is fast taking the place of bedding plants, as they do not have to be renewed every year.

Collection of 12 choice sorts, all different, named,	\$2.50	Collection of 50 choice sorts, named,	\$5.00

— — Schönbrunn	.15	1.50	10.00
— pedata	.15	1.50	10.00

These violets are all perfectly hardy. Viola cucullata, rich blue, is very much esteemed abroad for its fine effect in plantations, forming great clumps and blooming profusely. The English violets are very sweet and should be in every garden. Schönbrunn is very fragrant and was a great favorite of Unser Fritz, and was named from his palace and grounds in Germany, where it originated.

Schönbrunn and English white are very useful to plant freely on the borders of avenues, etc., and will perfume your whole estate.

WAHLENBERGIA. See Platycodon.

Peonies—New Chinese and Japanese Herbaceous

Well Established Plants from the Open Ground.

These fine Japanese and Chinese Peonies are well known to be the most showy flowers in cultivation, and are particularly adapted to our climate. They are entirely hardy and bloom a long time. They are accordingly very much used now for large masses in cemeteries, parks and pleasure grounds; and may be followed by Lemoine's beautiful new French Gladiolus, the stiff foliage helping to support the spikes of the gladiolus. Gladioli should be planted among the peonies in May.

Plants are now twenty-five cents, your choice. Twelve, all different, named sorts, my choice, \$2.50. Twenty-five, all different, named sorts, my choice, \$5.00.

Plants are divided of these named varieties. They will have from one to three eyes. When planted in the fall about 80 per cent. bloom the following year.

ALEXANDER MECHIN. Dark crimson with yellow stamens.	EDOUARD ANDRE. Dark crimson with yellow stamens.
BUYCHII. Brilliant rose with salmon center, full double.	EDULES SUPERBA. Full double large pink.
CAMILLE CALOT. Very dark rich rose, one color.	FAUST. Deep pink.
CHARLES DE BELLME. Brilliant violet purple.	FESTIVA MAXIMA. White, 50 cents each.
COMTE DE NEIPPERG. Bright amaranth carmine.	FRANCOIS FIRST. Pink, center salmon flecked with red.
DELACHII. Rich deep amaranth, full double.	Free bloomer.
	LOUIS HOUTTE. Crimson. Extra good bloomer.

LUCRECE. Rosy peach, center rosy white.
 MME. BERNARD. Soft rose, large, full double.
 MME. CHENEY. Pink shaded to white, extra large.
 MME. FURTADO. Deep violet rose, center bright salmon.
 MARECHAL VAILLANT. Very large full double, deep
 pink.
 MARQUIS DE LA TOURETTE. Brilliant purple wine.
 NE PLUS ULTRA. Fine, full double rosy pink.
 PAGANINI. Brilliant rose, salmon center.

POTTSI PLENA. Dark red.
 PURPUREA SUPERBA. Large, dark red.
 SOUVENIR DE PORTEAU. Flesh color and light yellow.
 SOUVENIR D'AUGUSTE MIELLEZ. Rich violet purple,
 cup shape.
 SUPERBISSIMA. Full double, pink shading to white.
 VICTORIE MODESTE. Rich pink, center pink and white.
 VIRGINIE. Large, delicate blush suffused with pink.
 WASHINGTON. Bright red, center light salmon red.

Pæonia Officinalis.

These Peonies are very desirable, as they bloom a week or ten days earlier than the preceding sorts.

Price 25c each; \$2.50 per dozen.

PEONIA officinale, single red.

PEONIA officinale, double red.

We are in correspondence with all growers of **hardy** ornamental nursery stock in the United States, in France, England and Germany.

Shall be glad to make special quotations on any ornamental nursery stock (hardy in New England) on lists calling for ten or more of a kind. When varieties, not offered in this catalogue are called for, lists must be received before the middle of March.

Stocks run short in most unexpected places, the earlier long lists are received, the better the chance of procuring the stock desired, at a reasonable price.
